2022 CA Internet Safety Priorities

In 2022, there is tremendous energy in CA around making the internet safer and healthier for kids. This energy creates calls for more access, better content, and better protections for our kids. Common Sense is sponsoring and cosponsoring a bipartisan legislative package addressing a wide range of issues including platform accountability, digital citizenship, and social media design.

**AB 2408** (Cunningham) Platform Responsibility/Liability - Bans online platforms from targeting California's kids using addictive design features & holds them liable for harms done.

- Call your Legislator about Bill AB #2408

**AB 2273** (Wicks) The Children's Code - Requires digital media targeted at children to be appropriately and safely designed for their well being.

- Call your Legislator about Bill AB #2273

**AB 2284** (Gabriel) Digital Citizenship - Funds K-12 instruction and resources that prepare young Californians to safely, constructively, and responsibly navigate the digital world.

2022 CA Broadband Equity Priorities

Common Sense is sponsoring and supporting various broadband equity bills addressing barriers to affordability and universal access to internet service. We are a founding member of the CA Alliance for Digital Equity (CADE), a statewide broadband coalition consisting of a diverse group of stakeholders focussed on legislative and budgetary advocacy.

**Airwaves for Equity (Reyes)** - California supports establishing a Digital Equity Foundation at the federal level to maintain funding for telehealth, internet access, & other digital equity efforts.

**AB 2752** (Wood) Broadband Mapping - Increases transparency of household internet service pricing so that Californians understand average costs and prices that are actually advertised.

**SB 876** (Becker) Digital Education Equity Program (DEEP) - Grants schools funding to develop online instruction, technology access, school-home connections, and other digital equity efforts.

**AB 2750** (Bonta) Digital Equity Plan - Supports California's implementation of federal funding dedicated to achieving universal broadband access.
